<input type="checkbox"/>	Name	Description	Date Last Edited
<input type="checkbox"/>	Written Communication VALUE Rubric	Written communication is the development and expression of ideas in writing. Written communication involves learning to work in many genres and styles. It can involve working with many different writing technologies, and mixing texts, data, and images. Written communication abilities develop through iterative experiences across the curriculum. Evaluators are encouraged to assign a zero to any work sample or collection of work that does not meet benchmark (cell one) level performance.	September 13, 2016
